INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and
Members of the Township Committee
Township of Hanover
County of Morris, New Jersey

Report on the Financial Statements

We have audited the accompanying balance sheets -regulatory basis of the various funds and account group of the Township of Hanover as of December 31, 20 14 and December 31, 20 13, and the results of operations and changes in fund balance – regulatory basis of such funds for the years then ended and the statements of revenues – regulatory basis and statements of expenditures – regulatory basis of the various funds for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the Township's financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The management of the Township of Hanover is responsible for the preparation and fair presentation of these financial statements in accordance with the basis of accounting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States; and in compliance with audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we express no such opinion. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that the audit evidence obtained is sufficient to provide a reasonable basis for our opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As discussed in Note I, the Township of Hanover prepares its financial statements in conformity with the accounting practices prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of New Jersey. The effects on the financial statements of the variances between the regulatory basis of accounting discussed in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the Township's policy to prepare its financial statements on the basis of accounting discussed in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the Township of Hanover as of December 31, 2014 and December 31, 2013 or the results of its operations for the years then ended.

Qualified Opinion on Regulatory Basis of Accounting

However, in our opinion, the financial statements referred to above present fairly, in all material respects, the financial position - regulatory basis of the various funds and account group of the Township of Hanover as of December 31, 2014 and December 31, 2013, and the results of operations and changes in fund balance - regulatory basis of such funds for the years then ended and the statements of revenues - regulatory basis and statements of expenditures - regulatory basis of the various funds for the year ended December 31, 2014, on the basis of accounting described in Note I.

Other Matters

Our audit was performed for the purpose of forming opinions on the financial statements of the Township of Hanover, in the County of Morris, State of New Jersey, that collectively comprise their financial statements. The accompanying supplementary information listed in the table of contents and the letter of comments and recommendations section are presented for purposes of additional analysis, as required by the Division of Local Government Services and are not a required part of the financial statements.

The supplemental information listed in the table of contents are the responsibility of management and were derived from the underlying accounting and other records used to prepare the financial statement. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, such information is fairly stated in all material respects in relation to the financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Governmental Auditing Standards, we have also issued our report dated June 22, 2015 on our consideration of the Township of Hanover's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Governmental Auditing Standards and should be read in considering the Township's internal control over financial reporting and compliance.

NOTES TO FINANCIAL STATEMENTS

TOWNSHIP OF HANOVER

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2014

Note I: Summary of Significant Accounting Policies

A. Basis of Presentation

The financial statements of the Township Committee of the Township of Hanover have been prepared in conformity with accounting principles and practices prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Township's accounting policies are described below.

B. Reporting Entity

The Township of Hanover is an instrumentality of the State of New Jersey, established to function as a municipality. The Township Committee consists of elected officials and is responsible for the fiscal control of the Township of Hanover.

The primary criterion for including activities within the Township's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is the degree of oversight responsibility maintained by the Township of Hanover. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters.

Except as noted below, the financial statements of the Township of Hanover include every board, body, officer or commission supported and maintained wholly or in part by funds appropriated by the Township of Hanover, as required by N.J.S. 40A:5-5. Accordingly, the financial statements of the Township of Hanover do not include the operations of the fire districts, volunteer fire and first aid squads or sewerage authority. Furthermore, the Township of Hanover is not includable in any other reporting entity on the basis of such criteria.

C. Description of Funds

The accounting policies of the Township of Hanover conform to the accounting principles and practices prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the Division). Such principles and practices are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with respect to public funds. Under this method of accounting, the Township of Hanover accounts for its financial transactions through the following separate funds which differ from the fund structure required by accounting principles generally accepted in the United States of America:

Current Fund – resources and expenditures for governmental operations of a general nature, including Federal and State grants for operation.

Trust Fund -receipts, custodianship and disbursement of monies in accordance with the purpose for which each reserve was created.

General Capital Fund – receipt and disbursement of funds used for acquisition of general capital facilities, other than those acquired in the Current Fund.

(CONTINUED)

Note I: Summary of Significant Accounting Policies (Continued)

C. Description of Funds (Continued)

Swimming Pool Operating and Capital Funds – account for the operations and acquisition of capital facilities of the swimming pool enterprise fund.

Public Assistance Fund- receipts and disbursements of funds that provide assistance to certain residents of the Township of Hanover pursuant to Title 44 of New Jersey statutes.

General Fixed Asset Account Group- account for all the general fixed assets of the Township, other than those accounted for in the Swimming Pool fund. The Township's infrastructure is not reported in the account group.

D. Basis of Accounting

The accounting principles and practices prescribed for municipalities by the Division differ in certain respects from accounting principles generally accepted in the United States of America (GAAP) applicable to local government units. The more significant differences are as follows:

Property Taxes, Swimming Pool Fees and Other Revenues- property taxes, swimming pool fees and other revenues are recognized on a cash basis. Receivables for property taxes and other items that are susceptible to accrual are recorded with offsetting reserves on the balance sheets. GAAP requires such revenue to be recognized in the accounting period when they become susceptible to accrual, reduced by an allowance for doubtful accounts.

Grant Revenues- Federal and State grants, entitlements or shared revenues received for purposes normally financed through the Current Fund are recognized when anticipated in the Township of Hanover budget. GAAP requires such revenues to be recognized in the accounting period when they become susceptible to accrual.

Expenditures (including Federal and State Financial Assistance Programs)- unexpended or uncommitted appropriations, at December 31, are reported as expenditures through the establishment of appropriation reserves unless canceled by the governing body. GAAP requires expenditures to be recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt, which should be recognized when due.

Encumbrances – contractual orders at December 31, are reported as expenditures through the establishment of a reserve for encumbrances. Encumbrances do not constitute expenditures under GAAP.

Appropriation Reserves – are available, until lapsed at the close of the succeeding year, to meet specific claims, commitments or contracts incurred during the preceding year. Lapsed appropriation reserves are recorded as additions to income. Appropriation reserves do not exist under GAAP.

D. Basis of Accounting (Continued)

Operating Deficits – deficits resulting from expenditures and other debits which exceed cash revenues, other realized revenues and credits to income in such fiscal year, are recorded as deferred charges on the balance sheet of the respective operating funds at year end and are required to be funded in the succeeding year's budget. GAAP does not permit the deferral of operating deficits at year end.

Compensated Absences- expenditures relating to obligations for unused vested accumulated vacation and sick pay are not recorded until paid, however, municipalities may establish and budget reserve funds for the future payment of compensated absences. GAAP requires that the amount that would normally be liquidated with expendable available financial resources be recorded as an expenditure in the operating funds and the remaining obligations be recorded as a long-term obligation.

Property Acquired for Taxes – is recorded in the Current Fund at the assessed valuation when such property was acquired and fully reserved. GAAP requires such property to be recorded in the general fixed assets account group at market value on the date of acquisition.

Inventories of Supplies – The costs of inventories of supplies for all funds are recorded as expenditures at the time individual items are purchased. The costs of inventories are not included on the various balance sheets as required by GAAP.

Interfunds – advances from the Current Fund are reported as interfund receivables with offsetting reserves which are created by charges to operations. Income is recognized in the year the receivables are liquidated. GAAP does not require the establishment of an offsetting reserve.

Basic Financial Statement – The GASB Codification also defines the financial statements of a governmental unit that are required to be presented in the general purpose financial statements be in accordance with GAAP. The Township of Hanover presents the financial statements listed in the table of contents which are required by the Division and which differ from the financial statements required by GAAP. In addition, the Division requires the financial statements listed in the table of contents to be referenced to the supplementary schedules. This practice differs from GAAP.

E. Budgetary Information

Annual budgets are adopted on a basis consistent with the requirements of the State of New Jersey, Department of Community Affairs, Division of Local Government Services.

Under New Jersey State Statutes, the annual budget is required to be balanced, prepared on a cash basis and to provide a reserve for uncollected taxes. The 2014 statutory budget included a reserve for uncollected taxes in the amount of \$3,068,187.79. To balance the budget, the municipality is permitted to utilize fund balance. The amounts of fund balance utilized to balance the 2014 statutory budgets were as follows:

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2014

Note I: Summary of Significant Accounting Policies (Continued)

F. Assets and Liabilities

1. Deposits and Investments

Deposits are cash and cash equivalents including petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. Other than Certificates of Deposit, deposits with maturities of greater than three months are considered to be investments. U.S. Treasury and Agency Obligations and Certificates of Deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey governmental units are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statutes provide a list of permissible investments that may be purchased by New Jersey governmental units.

2. Property Tax Assessment and Billing

Property valuations (assessments) are determined on true values as arrived at by a cost approach, market data approach and capitalization of net income where appropriate. Current assessments are the result of new assessments on a like basis with established comparable properties for newly assessed or purchased properties. This method assures equitable treatment to like property owners. But it often results in a divergence of the assessment ratio to true value. Because of the changes in property resale values, annual adjustments could not keep pace with the changing values. A revaluation of all property in the Township of Hanover was last completed in 2011.

Upon the filing of certified adopted budgets by the School District and the County, the tax rate is struck by the County Board of Taxation based on the certified amounts in each of the taxing districts for collection to fund the budgets. The statutory provision for the assessment of property, levying of taxes and the collection thereof are set forth in N.J.S.A. 54:4-1 et seq. Special taxing districts are permitted in New Jersey for various special services rendered to the properties located within the special districts.

Tax bills are mailed annually in June. The taxes are due August 1 and November 1 respectively, and are adjusted to reflect the current calendar year's total tax liability. The preliminary taxes due February 1 and May 1 of the succeeding year, are based upon one-half of the current year's total tax.

Tax installments not paid on or before the due date are subject to interest penalties of 8% per annum on the first \$1,500.00 of the delinquency and 18% per annum on any amount in excess of \$1,500.00. Pursuant to c. 75, P.L. 1991, the governing body may also fix a penalty to be charged to a taxpayer with a delinquency in excess of \$10,000.00 who fails to pay that delinquency prior to the end of the calendar year. The penalty so fixed shall not exceed 6% of the amount of the delinquency. These interest and penalties are the highest permitted under New Jersey Statutes. Delinquent taxes open for one year or more are annually included in a tax sale in accordance with New Jersey Statutes.

3. Deferred Charges

The funding of certain expenditures incurred in the current year (i.e. emergencies, overexpenditures) are deferred to subsequent years' budgets.

4. Fixed Assets

In accordance with N.J.A.C 5:30-5.6, Accounting for Governmental Fixed Assets, as promulgated by the Division of Local Government Services, which differs in certain respects from GAAP, the Township of Hanover has developed a fixed assets accounting and reporting system based on an inspection and appraisal prepared by Silvio Esposito, Treasurer. The Township has recently hired an Independent Appraisal Company to review and tag the Township's fixed assets.

Fixed Assets used in governmental operation (general fixed assets) are accounted for in the General Fixed Assets Account Group. Public domain ("infrastructure") general fixed assets consisting of certain improvements other than buildings, such as roads, bridges, curbs and gutters, streets and sidewalks and drainage systems are not capitalized.

All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available except for land, which is valued at assessed value.

No depreciation has been provided for in the financial statements.

Expenditures for construction in progress are recorded in the Capital Funds until such time as the construction is completed and put into operation.

Fixed assets acquired through grants in aid or contributed capital have not been accounted for separately.

Accounting for enterprise fund "fixed capital" remains unchanged under N.J.A.C 5:30-5.6.

Property and equipment purchased by the Swimming Pool Enterprise Fund are recorded in the capital account at cost and are adjusted for disposition and abandonment. The amounts shown do not purport to represent reproduction costs or current value. Contributions in aid of construction are not capitalized. The balances in the Reserve for Amortization and Deferred Reserve for Amortization accounts in the enterprise capital fund represent charges to operations for the costs of acquisitions of property, equipment and improvements. The enterprise does not record depreciation on fixed assets.

5. Use of Estimates

The preparation of financial statements in conformity with the accounting practices prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey requires management to make estimates and assumptions that affect certain reports, amounts and disclosures. Accordingly, actual results could differ from those estimates.

6. Comparative Data

Comparative total data for the prior year has been presented in the accompanying Balance Sheets and Statements of Operations in order to provide an understanding of changes in the Township of Hanover's financial position. However, comparative data have not been presented in each of the supplemental schedules since their inclusion would make statements unduly complex and difficult to read.

Note II: Detailed Notes On All Funds

A. Deposits and Investments

Deposits

New Jersey statutes permit the deposit of public funds in institutions located in New Jersey, which are insured by the Federal Deposit Insurance Corporation (FDIC), the Savings Association Insurance Fund, or by any other agencies of the United States that insure deposits or the State of New Jersey Cash Management Fund.

N.J.S.A. 17:9-41 et. Seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act (GUDPA). Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

These systems are sponsored and administered by the New Jersey Division of Pensions and Benefits. The PERS and PFRS are considered cost sharing multiple-employer plans.

The Public Employees' Retirement System (PERS) was established in January 1955, under the provisions of N.J.S.A. 43:15A to provide pension coverage to substantially all full time employees of the State or any county, municipality, school district or public agency provided the employee is not a member of another State-administered retirement system. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits.

Description of Systems

The Police and Firemen's Retirement System (PFRS) was established in July 1944, under the provisions of N.J.S.A. 43:16A to provide coverage to substantially all full time county and municipal police or firemen and State firemen appointed after June 30, 1944. Membership is mandatory for such employees with vesting occurring after 10 years of membership.

According to the State of New Jersey Management Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues a publicly available financial report that includes the financial statements and required supplementary information of each of the above systems. These reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey 08625-2095.

Retirement Benefits

For PERS employees, the benefits will be 1/55 of the average of three highest years of compensation for each year of service. However, for PERS who are veterans of the U.S. armed forces, the benefits will be 1/55 of final compensation for each year of service.

For PFRS employees, the benefits will be various percentages of final compensation depending upon the numbers of years of service.

Significant Legislation

Chapter 89, P.L. 2008, effective November 1, 2008, increased the PERS retirement age. If a person becomes a member on or after November 1, 2008 that person must be at least 62 years of age in order to retire without a reduction in their retirement allowance.

Chapter 78, P.L. 2011, effective June 28, 2011 implements changes to the PERS. PERS employee pension contribution rates will increase from 5.5% to 6.5% of salary

The second phase of the contribution rate increase from 6.5% to 7.5% is to be phased in equally over a 7 year period beginning July 2012. The contribution rate will increase by 0.14% each year with the first payroll of July until the 7.5% contribution rate is reached in July 2018.

The increase in the PERS employee contribution rate will also increase the minimum repayment amount for pension loans or the cost for a purchase of service credit if certified after the employee's increased contribution becomes effective.

Under a provision of Chapter 78, P.L. 2011, Cost of Living Adjustments (COLA) are suspended for all current and future retirees of all retirement systems. There is no reduction to any COLA increases that were already added to retiree benefits prior to the effective date of the law.

Employers are required to contribute at an actuarially determined rate in all Funds. The actuarially determined employer contribution includes funding for cost-of-living adjustments and noncontributory death benefits in the PFRS and PERS.

During the year ended June 30, 2014, for PFRS and PERS, the annual pension cost differs from the annual required contribution due to the enactment of Chapter 114, P.L. 1997.

REPORTS PURSUANT TO GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH "GOVERNMENT AUDITING STANDARDS"

The Honorable Mayor and
Members of the Township Committee
Township of Hanover
County of Morris, New Jersey

We have audited the financial statements of the Township of Hanover as of and for the years ended December 31, 2014 and December 31, 2013, and have issued our report thereon dated June 22, 2015. In our report our opinion was qualified because the Township of Hanover prepares its financial statements using the regulatory basis of accounting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. We conducted our audits in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States; and in compliance with audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Township of Hanover's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township of Hanover's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Township of Hanover's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Township of Hanover's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Township's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

PART II

GENERAL COMMENTS AND RECOMMENDATIONS
YEAR ENDED DECEMBER 31, 2014

GENERAL COMMENTS

CONTRACTS AND AGREEMENTS REQUIRED TO BE ADVERTISED PER N.J.S.A. 40A:11-4

Effective April 17, 2000 N.J.S.A. 40A:11 (Local Public Contracts Law) is revised by P.L. 1999, c.440 (originally known as Assembly bill No. 3519) The Division of Local Government Services in the Department of Community Affairs, after consultation with the Commissioner of Education, shall prescribe rules and procedures to implement the requirements of the law

Effective July 1, 2010 the bid threshold in accordance with N.J.S.A. 40A:11-3 (as amended) is \$26,000.00.

On May 17, 2002 the Township passed a resolution increasing the bid threshold to \$25,000.00 and naming Joseph A. Giorgio as the Township's Qualified Purchasing Agent. On March 10, 2011 the Township passed a resolution increasing the bid threshold from \$29,000.00 to \$36,000.00.

It is pointed out that the governing body of the Township of Hanover has the responsibility of determining whether commitments and expenditures are in compliance with the statutes and, where question arises as to whether any contract or agreement might result in violation of these statutes the Township Attorney's opinion should be sought before commitment is made.

Inasmuch as the system of records is not required to provide and therefore did not provide for an accumulation of payments by categories for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear cut violations existed. None were noted.

The results of our examination indicated that no individual payments, contracts or agreements were made "for the provision or performance of any goods or services" in excess of the statutory limit where there had been no advertising for bids in accordance with the provision of N.J.S.A. 40A:11-4.

The minutes indicate that resolutions were adopted and advertised authorizing the awarding of contracts or agreements for "Professional Services" per N.J.S.A. 40A: 11-5 for Legal, Engineering, Planning, Attorney, Architect, Appraisers, Hearing Officer, Animal Control, Various Consultants and Auditing Services.

The system of records is not required to provide and therefore did not provide for an accumulation of purchases for which the Township used contracts entered in to by the State Department of Purchase and Property pursuant to Ch. 114, P.L. 1977, therefore, the extent of such purchases could not reasonably be ascertained. Our examination did reveal however, that the following purchase was made through the use of State contracts: Dump Truck, Office Supplies and Software License and Maintenance Agreement.

Ordinance 11-91 adopted May 23, 1991, authorized the Township to enter into cooperative purchasing program with the County of Morris. On September 8, 2011 the Township by resolution extended its participation to September 30, 2016.

DELINQUENT TAXES AND TAX TITLE LIENS

The delinquent taxes at December 31, 2014 include taxes for the year 2014.

The last tax sale was held December 1, 2014 and was complete.

Inspection of tax sale certificates on file revealed that all tax sale certificates were available for audit.

The following comparison is made of the number of tax title liens receivable on December 31, of the last three years:

	<u>Number of Liens</u>
