**HANOVER TOWNSHIP POLICE DEPARTMENT SEEKS
COMMUNITY ASSISTANCE IN MAINTAINING SAFETY**

The Hanover Township Police Department is committed to keeping your community safe. Many residences and businesses are now utilizing various types of surveillance camera systems. These systems may assist us in solving crimes which might occur in the surveillance range. With that in mind, the Police Department is requesting that residents and businesses consider **voluntarily** registering their privately owned surveillance camera systems. Information or footage captured on these surveillance cameras may facilitate the apprehension and prosecution of individuals involved in criminal activity in **your neighborhood**. You will only be contacted by our department if there is an incident within the vicinity of your camera system, and we may request to view footage in order to assist with our investigation. Please note that you are not obligated to grant our department access to your surveillance camera footage at any time, whether your system is registered or not.

If you would like to participate in this initiative, please visit our website at hanoverpolice.com. This site has a form under the "Video System Registration" tab, which you can complete and submit to us on-line.

Thank you for partnering with our department as we endeavor to keep the Township of Hanover a safe community to live, work, or visit.

Thank you,

Chief Mark D. Roddy

Hanover Township Police Department
