

Bake Up Some Fun!

Give your child an opportunity to spark their creativity while enhancing their math, science & social skills in a **fun setting with delicious, healthy results!!**

Bake Up Some Fun is an innovative extracurricular activity that teaches your child how to bake from scratch with wholesome, nutritious ingredients they will love! What's more, kids often find that food tastes better when they make it themselves! 😊

During our program, your child will learn basic, kid-friendly baking skills, come to understand valuable kitchen safety and build their own personalized cookbook to use at home for years to come! **As an added bonus, each week your child will bake a "treat" to bring home to share with their family.**
