

Bake Up Some Fun!

Summer Camp!

Give your child an opportunity to spark their creativity while enhancing their math, science & social skills in a fun setting with delicious results!!

Bake Up Some Fun is an innovative extracurricular activity that teaches your child how to bake from scratch with wholesome, nutritious ingredients they will love! What's more, kids often find that food tastes better when they make it themselves!

During each 3-hour session of our 5-day summer-camp program, your child will learn basic, kid-friendly baking skills, come to understand valuable kitchen safety, and bake something a bit more advanced (and time consuming) than during our usual school year program. Along with our time in the kitchen, each day we will work on interesting crafts, play fun games, and have a short movie & lunch/snack time (while things are baking). Most importantly, everyone has a chance to make some new summertime friends! Camp includes an apron for each child, which they get to tie-dye themselves, along with many wonderful baked goodies, which your child will bring home each day to share with their family. **Creative, active, and delicious summertime fun!**
